JOURNAL OF THE RUBBER RESEARCH INSTITUTE OF MALAYA

Vol. 4

Nos. 1 and 2

SUBJECT INDEX

B

PAGE.

BALING

of rubber — 4, 76
In "Grass" mats 77
— Hessian 76

BATTERIES (RUBBER SHEETING)

Further notes on 81, 85
Continuous sheeters 88
Efficiency of machining 85
Softness of coagulum 87
Change of dimensions of sheet on machining ... 87

BUDDING

Variations in technique—on big stocks 1, 39
Age of budwood 40
Analysis of budding results 43, 44, 45
Plan of experiment and layout 39, 42
Time of opening 40
— — shooting 40

C

CARBON AND NITROGEN CONTENT OF SOME NATURAL COVERS 83, 131
Discussion on relative benefits to soil produced by growth of these covers 135
Experiments—List of plants taken for analysis ... 132

CLONE RUBBER

The Properties of—Part 1 ... ... 83, 140
Variation between clones 142
— within the clones 142
Similarity in variation 143

PAGE.

COAGULATION

Sulphuric acid as a latex coagulant
(*See* Sulphuric Acid)

COVERS AND CULTIVATION METHODS

The effect of—on the growth of young rubber—Part III— ... 83, 123
Experiments carried out at R.R.I. Experiment Station:
Blocks 7, 8 and 17D Covers 123, 128
— 17A Covers and Manures 127
— 19 Cultivation 128
— 24 Erosion experiment 129
— 6 Manuring 126
— 11 Trees in belukar 125
The Carbon and Nitrogen content of some natural covers
(*see* Carbon and Nitrogen content)

D

DISEASES

Fomes Lignosus—Root disease caused by— 1, 5
Investigation of nature and mechanism 6
Its early history 6
Recent history—Experiments carried out at the R.R.I. Experiment Station 11
Investigation on the life history of the fungus ... 29
Laboratory cultivation of rhizomorphs 31
— of fructifications 31
Vegetative comparison of its various forms ... 29
Treatment 18
Curative—Scheme of control on the Experiment Station 23, 24
Preventive 18
Treatment on young rubber areas—A scheme of— ... 1, 34
Value of lime in control 26

Leaf diseases—*Oidium Heveae*—(*see* Oidium)

Root diseases—In connexion with forestry system of planting (*see* Forestry system)

E

EDITORIALS 1, 81

F

FOMES LIGNOSUS

(*See* diseases)

FORESTRY SYSTEM

of rubber planting 2, 54
Comments and criticisms 60
Description of Birkemose system and results 57, 58

PAGE.

General theory 54
Root diseases 62
Soil erosion 63
Soil management 61
Statement of Birkemose system 57
Summary 63

L

LATEX

Hevea—Quebrachitol and Lipin from, Notes on—
(*See* Quebrachitol)
(*See* Lipin)

LATEX COAGULATION

Sulphuric Acid—as a coagulant—
(*See* Sulphuric Acid)

LIPIN

from Hevea latex 84, 153
Investigations on possible commercial applications: ...
As an emulsifier in the preparation of insecticides ... 153
As a possible aid in the formation of miscible oils ... 154

M

METEOROLOGY

Effect of meteorological factors on the virulence of Oidium Heveae in Malaya—
(*See* Oidium)

MANURING

Green—(*See* Covers)

N

NITROGEN

and Carbon content—of some natural covers—
(*See* Covers)

O

OIDIUM HEVEAE

Effects of meteorological factors on the virulence of— ... 82, 104
Humidity and temperature 111
Influence of heavy rainfall on the disease 108
Tables shewing rainfall in inches in Malaya and Ceylon—1930— 110
Laboratory experiments 105
Determination of conditions for growth of fungus 105

PAGE.

Sulphur dusting experiments—Report on— 82, 115
Cost of treatment 120
Description of dusting operation and results ... 117
Intervals between dustings 120

P

PACKING OF RUBBER
(*See* Baling)

Q

QUEBRACHITOL
from Hevea Latex 84, 153
Investigation on possible commercial applications ... 153

R

RAINFALL
Influence on *Oidium Heveae* (*See* Oidium)

ROOT DISEASE
caused by *Fomes Lignosus* (*See* Diseases)

RUBBER ROADWAYS INVESTIGATIONS
A review 3, 65
Early history 65
Investigations at R.R.I. 68
Rubber compositions made from latex 69
Laboratory testing of 72
Rubber roadways compositions of public interest— ... 74

S

SHEETING BATTERIES
Further notes on—(*See* Batteries—Rubber Sheeting)

SULPHUR DUSTING
In relation to *Oidium Heveae* (*See* Oidium)

SULPHURIC ACID
As a latex coagulant 81, 94
Experiments on the quantity of coagulant 95
Vulcanising properties of sulphuric-coagulated Rubber 97

SOIL MANAGEMENT
In relation to forestry system of rubber planting
(*See* Forestry Methods)

T

PAGE.

TAPPING

The effect of Sunday rest on 2, 46
Control and experiment tasks 48
Daily yields 50
Dry rubber content 52
Individual tree yields 49
Results of experiments 47
Systems of resting 48

V

VARIABILITY

of Sheet Rubber prepared under laboratory conditions ... 84, 149

VARIATIONS

of budding technique on big stocks
(*See* Budding)
of rubber of different clones
(*See* Clone Rubber)
